### Introduction:

A Blood Donation Camp was organized by NSS Unit, Shah Satnam Ji Boys' College, Sirsa in association with Babu Maghar Singh International Blood Bank and Shah Satnam Ji Hospital Team, Sirsa in college campus. The camp began at 10:30 AM with a short inaugural function by Chief Guest of the Blood Donation Camp, honourable Administrator Dr. S.B. Anand expressed his gratitude to the NSS unit of the College for its continuous endeavour in this regard. Principal Dr. Dilawar Singh also donated the blood and encouraged all the donors by saying "Gift of Blood is Gift of Life". He thanked all the donors for the Noble steps they have taken and to help the fellow brethren.

NSS Program Officer addressed the gathering, Blood cannot be manufactured - it only comes from generous donors to save the society and mankind, we should come forward for this noble cause 50 units of blood were donated by both students and the staff members of our educational institutions. It is a way of Shah Satnam Ji Boys' College gesture in bringing a ray of hope to alleviate the serious problems (Dengue fever) of acute shortage of blood. India faces a blood shortage of 3 million units.

The problem can be addressed if an additional two percent of Indians donate blood, as opened by the Health experts. We need 12 million units of blood every year but just about nine million units are being donated. Our College has been religiously organizing blood donation camps every year and students and the faculty members come forward voluntarily to donate blood. While addressing first time donors at the camp our NSS/NCC volunteers brought awareness in them about shortage of blood and why we must donate blood every year, to help the persons requiring blood. Blood donation can save lives of innumerable persons. Donation of blood is very critical and crucial for saving lives many patients and those who have met with accidents. It is as such a great service or contribution to the society and people living in it.

### Objectives of Event:

- To collect blood units but also to make students aware about blood and its benefits.
- It was an effort to motivate students to come forward and donate for this noble cause.
- First time donors need to be encouraged so that once the initial hesitation/ fear goes away, the donor will look forward to such camps in near future too.
- To help anyone, in case of any requirement for blood.
